STATE CLEARINGHOUSE

NEWSLETTER

June 16 through 30, 2001

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **June 16 through 30, 2001**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte and Karen Fowler (for projects in Northern California)
Scott Morgan and Brian Grattidge (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 1999 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Replace old appliances with energy-efficient ones. Look for models with the Energy Star Label.

Federal Notices

<u>Intergovernmental Review Notices (June 16 - 30, 2001)</u>

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

AGENCY: Federal Energy Regulatory Commission

CONTACT: Robert Bell

TELEPHONE: (202) 219-2806

E-MAIL: N/A

ADDRESS: Federal Energy Regulatory Commission, 888 First Street, NE,
Washington, DC 20426

DESCRIPTION: A hydroelectric application for a preliminary permit has been filed by Symbiotics, LLC., for the Briones Dam Project (No. 11969-000). The proposed project is located on Bear Creek, in Contra Costa County, California. The project would not utilize any federal dam or facilities. The project would have an annual generation of 34.45 GWh that would be sold to sold to a local utility.

COMMENT BY: 60 days from the issuance of this notice (notice issued on June 8, 2001)

CONTACT: Jim Fargo

TELEPHONE: (202) 219-2848

E-MAIL: N/A

ADDRESS: Federal Energy Regulatory Commission, 888 First Street, NE,
Washington, D.C. 20426

DESCRIPTION: In a letter to Wayne S. White, Field Supervisor with the U.S. Fish and Wildlife Service (FWS), Lon R. Crow of the Hydro West Group 2, requested a response to a former letter dated December 28, 2000, which included a biological assessment for the Mokelumne Hydroelectric Project. The original letter asked FWS to consult formally with the Hydro West Group 2 and stated their view that the relicense of the Mokelumne

Project, with measures recommended in the Draft Environmental Assessment for the project, may “adversely affect” the valley elderberry longhorn beetle and would “not be likely to affect” the bald eagle, California red-legged frog, Delta smelt, and Sacramento spittail.

DESCRIPTION: On January 12, 2000, and supplemented on November 9, 2000, Southern California Edison Company (SCE), licensee for the Portal Water Power Project (No. 2174-010), filed an application to amend its license. The SCE is requesting the Commission’s approval to delete non-jurisdictional transmission lines from the project’s license. SCE also revised exhibits M, K, and L reflecting as-built conditions of the project. The project is located on the Rancheria Creek and Big Creek, in Fresno County, California. The Commission has approved the amendments made to the project and has issued an order setting the exact effective date of the ordering paragraph.

2000022028	Tuolumne River Regional Park Master Plan Modesto, City of Modesto--Stanislaus The Tuolumne River Regional Park Master Plan is a land use vision and framework for improvements that will create a regional river-front Park approximately 500 acres in size along the Tuolumne River and south of downtown Modesto.	EIR	08/01/2001
2001022038	Northeast Quadrant Science and Safety Projects and 1990 Long Range Development Plan Amendment University of California, Berkeley Berkeley--Alameda The Northeast Quadrant Science and Safety (NEQSS) projects include the construction of two new institutional buildings in the northeast quadrant of the main UC Berkeley campus and the addition of one floor of parking to an existing multi-story parking structure just north of the main campus. Seismic retrofit and renovations are also proposed for Cory Hall, Davis Hall South, and the Naval Architecture Building. The NEQSS Environmental Impact Reprt (EIR) also addresses construction of Soda Hall II, that was evaluated in an earlier EIR but has not yet been built. Soda Hall II is addressed primarily in terms of cumulative impacts. The Davis Hall North Replacement Building would replace the existing Davis Hall (North) and would provide 145,000 gross square feet (gsf) of academic space. Laboratories, classrooms, offices, and seminar space would be provided. The Stanley Hall Replacement Building would replace existing Stanley Hall and would provide 285,000 gsf of space that would include lecture halls, classrooms, administrative offices, and research and teaching laboratories. The fourth level of the existing Lower Hearst Parking Structure would be redesigned to remove the existing tennis courts and skateboard facility to add 139 new parking spaces. An amendment to the 1990 Long Range Development Plan is requested to allow an overall gross square footage increase for Campus development of about 325,000 gsf.	EIR	08/01/2001
2001031096	Downey Landings Specific Plan Downey, City of Downey--Los Angeles Specific Plan for a multiple-use development on the 160-acre former Rockwell/Boeing site in Downey. Proposed land uses include a shopping center, offices, plus buildings designed to accommodate research and development activities, and a Kaiser Permanente hospital and medical office facility, with supporting uses. Together, the project's buildings will total a maximum of approximately 3.7 million square feet of floor area in four distinct land use areas.	NOP	07/17/2001

2001062079	Catholic High School Morgan Hill, City of Morgan Hill--Santa Clara The proposed high school will be 146,772 square feet in size and will accommodate approximately 1,200 students and 90 faculty members. The main structures on the site will consist of three two-story school buildings and a Chapel. The multi-story buildings will contain the academic classrooms, a library and a gymnasium. The project will also construct bleachers for the outdoor athletic facilities. The remainder of the site will be developed with outdoor athletic facilities, surface parking lots for the students and staff, and a lawn area. The outdoor athletic facilities include two baseball fields, a football stadium, a soccer field, three basketball courts, four tennis courts and a swimming pool. Parking on the site will consist of a staff parking lot containing 90 parking spaces and two student parking lots containing a total of 375 parking spaces.	NOP	07/18/2001
2001062082	Lathrop Comprehensive Annexation Program Lathrop, City of Lathrop--San Joaquin The Lathrop General Plan, first adopted in 1991, calls for creating a "new town" with a population of about 30,000 by about 2012. The City Sphere of Influence boundaries, which encompass the proposed annexation area, are considered by the General Plan to be a "potential urban limit line" to contain expected growth. The General Plan considers specific plans to be the primary tool of implementation for the General Plan; specific plans are anticipated for all three planning areas within the annexation area in the near future. The project would involve the annexation of 1,854 acres within the existing Sphere of Influence. The existing General Plan designations within the annexation area would not change. The lands would be pre-zoned to be consistent with the General Plan land uses.	NOP	07/17/2001

2000111158	<p>J & L Ranch Bridge Replacement & Stream Restoration San Benito County --San Benito</p> <p>The project involves the reconstruction of the J&L Ranch crossing of the San Benito River and the restoration of the river channel. The bridge project includes the placement of piles and concrete structures, rip rap and grading for the bridge abutments and road crossing. The bridge will be 16 feet wide and have a minimum 46-foot free span with 20-foot approaches. This fill will have a maximum height of 16 feet. There would be approximately 3,850 cubic yards of cut and 3,100 cubic yards of fill involved in the construction of the bridge. The bridge placement and grading is proposed to provide a clear low flow channel width of 46 feet with side culverts at higher elevations to increase the flow capacity. This will allow the bridge to have a free board of three feet during a 100 year storm event. During bridge construction, silt fences will be installed to prevent fines from washing into the river. Channel restoration will consist of: 1) removal of the channel blockages; 2) the creation of an overflow channel; 3) the placement of bank stabilization material (rip rap) on the outside bank in the curve area; and 4) the planting of native riparian species, such as cottonwoods and willows, along banks and on unvegetated open areas outside the channel. Approximately 3,500 cubic yards of material will be moved as part of the restoration activities.</p>	NOD

	This project is intended to improve JID's groundwater recharge capability and lessen the groundwater overdraft within the district. This will provide storage that will provide regulation and greater efficiency in delivery of surface waters.		
2001021005	Rincon and Wohlford Penstock Replacement Project (ER 200-02) Escondido, City of Escondido--San Diego The project involves replacement of two existing hydroelectric generating facilities, with no increase in capacity. The Rincon penstock would be removed and replaced in the same alignment with an approximately 0.4 mile, below grade pipeline. The Wohlford penstock would be approximately 0.77 mile long and would deviate slightly from the original alignment to avoid geologically unstable areas and biological resources. Above grade portions of the old pipeline would be removed and below grade portions would be abandoned in place.	NOD	
2001021048	TPM 20439RPL1, Log No. 99-14-019, Crest Lot Split San Diego County, Department of Planning and Land Use --San Diego The proposed project is a minor subdivision of a 24.10 acre parcel into 4 lots of 4.15, 4.4, and two of 8.0 acres gross. The project includes the dedication of open space easements over approximately 16 acres. Water will be supplied by the Padre Dam Municipal Water District. Sewer service will be provided by on-site septic systems. Access to the site will be from a private road off Calle de la Sierra. The project is within the County of San Diego's Multiple Species Conservation Plan (MSCP) Lakeside-Metro-Jamul segment.	NOD	
2001031056	Carpinteria Valley Water District Headquarters Well Development Carpinteria, City of Carpinteria--Santa Barbara Construction and operation of a water well to replace a previously existing well and construction and operation of a manganese filtration system.	NOD	
2001031071	Pacifica TPM / TPM 20524 / LOG No. 00-08-0026 San Diego County, Department of Planning and Land Use --San Diego The proposed project is a subdivision of two contiguous lots totaling 5.09 acres into four parcels of approximately 1 acre. The project site has been previously disturbed and a natural drainage exists to the east of the property. The project will be accessed by the Vista Grande. The Vista Irrigation District will provide potable water and all lots will be provided with a septic system. Fire service will be provided by the Vista Fire Protection District. The project lies within the Vista Unified School District.	NOD	
2001031106	Route 252 Residential Phase II Southeastern Economic Development Corporation San Diego--San Diego The applicant proposes to install two headwalls, a 72-inch wide stormdrain and approximately 230 cubic yards of upland fill into an existing 189-foot long drainage channel located within the Southcrest Redevelopment Project Area, between Acacia and Alpha Streets. This action is part of a larger project for which a Negative Declaration (LDR No. 98-0262) was issued on August 10, 1999. The previous Negative Declaration is incorporated herein by reference. This revised	NOD

	Mitigated Negative Declaration and Initial Study shall address only issues related to the aforementioned agencies' jurisdictional issues, as these issues were not addressed in the previous document.		
2001041022	County Service Area 7A Oak Shores Wastewater Disposal Area Expansion Project ED00-386 (C000026E/P680232) San Luis Obispo County --San Luis Obispo The County of San Luis Obispo is proposing to construct permanent percolation ponds for treated wastewater for the County Service Area 7A wastewater treatment system. The new ponds would replace existing temporary emergency ponds that have been constructed and utilized at the site and will be used for disposal of wastewater when the existing spray fields are unable to meet disposal needs, primarily during the rainy season.	NOD	
2001041136	Fort Irwin Composting Facility San Bernardino County Land Use Services Department --San Bernardino Construction and operation of a Composting Facility at Fort Irwin National Training Center. Green material and sewage sludge will be diverted from the nearby Ft. Irwin Sanitary Landfill and processed at the composting facility. Processed composite will be reused for landscaping projects throughout the base.	NOD	
2001042064	Ellingwood Special Permit (SP-00-44) for a Less Than Three Acre Conversion Exemption, for the Removal of 22 Trees on a 1.8 Acre Residential Parcel Humboldt County Eureka--Humboldt A Special Permit application. The applicant proposes a California Department of Forestry and Fire Protection (CDF), Less Than Three Acre Conversion Exemption, for the removal of approximately 22 trees on a residential parcel for increased yard space and future house site. A Class II watercourse and wet area are located on a portion of the parcel near the north property line. Tree removal will occur greater than 60 feet from the watercourse. Residual slash material will be hauled off-site. The approximately 1.8 acre parcel is currently developed with an existing single family residence and a detached garage. The parcel is served by community sewer and water.	NOD	
2001052026	Elementary School No. 9 Sylvan Union School District Modesto--Stanislaus Elementary school serving kindergarten through fifth grade. School would accommodate approximately 800 students and 40 staff.	NOD	
2001052034	Environmental Assessment 2001-01; Cottage Creek Boat Launch Facility and Parking Area Improvements Yuba County --Yuba The request is to expand and repair the existing Cottage Creek Launching Facility at Bullards Bar Reservoir. The existing parking area will be re-paved and expanded by approximately twenty percent (20%). The expansion will include the addition of a boat preparation area and sidewalks that run from the upper lot to the boat ramp. New restrooms will be added at more convenient locations and will be	NOD

NOD	
2001058439	Mule Deer Understory Thinning Tahoe Conservancy --El Dorado This project can supply up to 1.9 million gallons per day of filtered, disinfected, recycled water in the first phase of a two-phase project. The project will serve portions of five cities in Alameda County (Alameda, Albany, Berkeley, Emeryville, and Oakland). In the first phase, up to 24 miles of distribution pipelines and two pump stations would be built and up to seven million gallons of storage will be provided. A 4.4-mile length of irrigation pipeline, already installed by Caltrans when the Eastshore Freeway (I-80) was widened, will serve as a recycled water transmission line. The recycled water will be used for landscape irrigation, industrial processes, toilet flushing in commercial buildings, and wetlands restoration. As part of this two-phase construction project, new recycled water treatment facilities, transmission and distribution lines, pump stations, and storage will be built.	NOD

A 4.4-mile length of irrigation pipeline, already installed by Caltrans when the Eastshore Freeway (I-80) was widened, will serve as a recycled water transmission line. The recycled water will be used for landscape irrigation, industrial processes, toilet flushing in commercial buildings, and wetlands restoration. As part of this two-phase construction project, new recycled water treatment facilities, transmission and distribution lines, pump stations, and storage will be built.	NOD	
2001058439	Mule Deer Understory Thinning Tahoe Conservancy --El Dorado This project can supply up to 1.9 million gallons per day of unfiltered, disinfected recycled water in the first phase of a two-phase project. The project will serve portions of five cities in Alameda County (Alameda, Albany, Berkeley, Emeryville, and Oakland). In the first phase, up to 24 miles of distribution pipelines and two pump stations would be built and up to seven million gallons of storage will be provided. A 4.4-mile length of irrigation pipeline, already installed by Caltrans when the Eastshore Freeway (I-80) was widened, will serve as a recycled water transmission line. The recycled water will be used for landscape irrigation, industrial processes, toilet flushing in commercial buildings, and wetlands restoration. As part of this two-phase construction project, new recycled water treatment facilities, transmission and distribution lines, pump stations, and storage will be built.	NOD

2001062089	<p>Westside Acquisition Project Turlock Irrigation District Patterson--Stanislaus, Tuolumne, Mariposa</p> <p>The Turlock Irrigation District (TID), a public entity, plans to purchase electric facilities within 225 square miles of western Stanislaus County from Pacific Gas & Electric Corporation (PG&E), a regulated utility. The negotiated purchase includes approximately 200 linear miles of distribution facilities, all the equipment at the Patterson Substation, the distribution equipment within the Salado Substation, 0.25 miles of 60 kV transmission line into the Patterson Substation, and eventually, a 1.1-mile 60 kV transmission tap line to Patterson Frozen Foods. The transfer agreement also includes the lease of the land at the Patterson Substation and a portion of the Salado Substation property. The proposed project also includes the physical changes needed for TID to operate the acquired facilities independent of the PG&E system and serve the customers within the zone, including installing severance facilities at eight points in the distribution system along the boundaries of the new TID Westside service zone. TID also plans to acquire from PG&E the right to serve the electricity in the South Short Zone, an area near Don Pedro Reservoir that presently contains limited distribution facilities and would not require any severance construction.</p>	Neg	07/19/2001
2001062090	<p>Rush Creek Lodge and Cabins/Zone Change 97RZ-028 and Development Agreement 97DA-008 Tuolumne County Community Development Dept. --Tuolumne</p> <p>1. Ordinance for Zone Change 97RZ-028 to reconfigure 3.6+/- acres of O (Open Space) zoning on a 17.9+/- acre parcel currently split-zoned C-K (Commercial Recreation) and O (Open Space) under Title 17 of the Tuolumne County Ordinance Code.</p> <p>2. Ordinance for Development Agreement 97DA-008 to allow the following: (a) construction of the Rush Creek Lodge and cabins to consist of 143 lodging units, 4,368 square feet of conference facilities, a restaurant and a bar; (b) location of an expansion subsurface wastewater disposal field and associated effluent lines on a portion of the site zoned O (Open Space) under Title 17 of the Tuolumne County Ordinance Code; and (c) location of water wells and water lines on a portion of the site zoned O (Open Space) under Title 17 of the Tuolumne County Ordinance Code.</p>	Neg	07/19/2001
2001062091	<p>Clear Creek Bridge Scour Repair, SR 149 in Butte County Caltrans #3 Chico, Oroville--Butte</p> <p>The proposed project will place rock slope protection (RSP) in the channel under the Clear Creek Bridge (#12-0073) in State Route 149 in Butte County. RSP will be placed from abutment to abutment for the width of the bridge, and extend out 8 ft around the pier footings.</p>	Neg	07/19/2001

2001068276	Vidal Community Illegal Disposal Site Remediation California Integrated Waste Management Board --San Bernardino Approximately 1,500 cubic yards of waste has been primarily discarded alongside the east end of Main Street, approximately 1.5 miles east of Vidal. The illegally dumped waste is primarily comprised of household trash, abandoned vehicles, metal debris, construction/demolition debris, and tires.	NOE	
2001068277	Oakhurst Illegal Disposal Site Remediation California Integrated Waste Management Board --Madera The Oakhurst Illegal Disposal Site is situated in a residential-rural-multiple family zoned district of Oakhurst. Over a many year time span, the owners accumulated and discarded various types of waste over the parcels, which includes abandoned mobile homes, dilapidated wooden cabins, disabled vehicles and farm implements, vehicle parts, lumber, discarded appliances, used tires, and trash/garbage. Remediation of the site includes transporting unrecyclable solid waste (e.g., household garbage, wood debris, etc.) to appropriate landfills; separating and hauling metal debris and tires to appropriate recycling facilities; and packaging and proper disposal of all household hazardous waste and asbestos-containing waste. Upon conclusion of the project it is anticipated that all wastes will be removed and no further action will be required other than monitoring by the County Code Enforcement Office to ensure no additional illegal dumping occurs. Estimated time to complete the cleanup is 3 weeks.	NOE

	trenches, and excavations will be filled immediately after ore is removed. Ore bearing sands will be run through a sluice box to separate the ore from the fines. No chemicals will be used at the site to separate the gold from the fines. Small dams may be constructed to catch water in Willow Creek. Excavation may be conducted in two designated work areas along the North Fork of Willow Creek, each work area is approximately 0.4 miles in length and are separated by a no work area of approximately 0.1 miles where a dirt road crosses North Fork Willow Creek. Issuance of a Streambed Alteration Agreement Number R3-2001-0310 pursuant to Fish and Game Code Section 1603.		
2001068285	Hilltop Burn Dump Soil and Sediment Removal Redding, City of Redding--Shasta Subsequent to completion of the remediation of the former dump site on Hilltop Drive by the California Intergrated Waste Management Board in 1999, additional residual ash material was located in the drainage channel downstream of the remediation project site. The project is a subsequent action associated with the previous activities and will consist of removing a total of approximately 8 cubic yards of residual ash material from three separate locations along the stream bank by hand digging or using small equipment. The excavated areas along the stream bed will be backfilled with river cobble. In addition, approximately 24 cubic yards of deposited sediment will be removed from an existing detention pond below the project site using an excavator. The detention basin will be hydro-seeded after excavation. All excavated material will be trucked offsite for disposal.	NOE	
2001068287	Franchise Renewal Agreement with United Cable Television Corporation Modesto, City of Modesto-- Adoption of an Ordinance Amending Article 11, chapter 4 of the City of Modesto Municipal Code, pertaining to the Cable Television Franchise and adoption of an ordinance approving the Franchise Renewal Agreement with United Cable Television Corporation, a subsidiary of AT&T, including the following terms: A 10-year renewal of the cable franchise based on a rebuild of the cable system within the next 24 to 36 months and increase the number of channels available. At the end of the rebuild, the system will be ready for broadband services to be delivered to Modesto. An extension of the Franchise Agreement to 15 years (total) if AT&T completes the rebuild to broadband services within 24 months. Rebuild of the Institutional Network (I-Net) and completion of system construction and grounding work will bring the system into compliance with the City's Municipal code. Management of the Public-Education-Government (PEG) studio for a 12-month period and assistance in transitioning the management of the PEG studio to a community group selected by the City.	NOE	
2001068288	Silvercrest Picnic Area Comfort Station (00/01-CD-30) Parks and Recreation, Department of --San Diego Project consists of replacing the function of an existing historic restroom with a new ADA accessible restroom and septic system while leaving the old, non ADA accessible facility in place. 2001061095	Torrey Hills CPA San Diego, City of San Diego--San Diego Land use redesignation and rezone of 3 parcels. Project includes a 22 unit residential development and usable open space area.	NOP	07/20/2001
2001061096	McAllister Hills Golf and Country Club Specific Plan No. 325, Change of Zone No. 6598, General Plan Amendment No. 572 Riverside County Transportation & Land Management Agency --Riverside When fully developed, the McAllister Hills Golf and Country Club Specific Plan area will provide residential land uses with a density of approximately one dwelling unit per acre. The project will also include an 18-hole championship golf course with a clubhouse, open space, and a lake. The project proposes 321 dwelling units on 102.6 acres of medium density residential, 121.4 acres of golf course, 94.7 acres of open space and 10.8 acres of roadways on a 329.5 acre project site.	NOP	07/20/2001
2001062082	Lathrop Comprehensive Annexation Program Lathrop, City of Lathrop--San Joaquin The Lathrop General Plan, first adopted in 1991, calls for creating a "new town" with a population of about 30,000 by about 2012. The City Sphere of Influence boundaries, which encompass the proposed annexation area, are considered by the General Plan to be a "potential urban limit line" to contain expected growth. The General Plan considers specific plans to be the primary tool of implementation for the General Plan; specific plans are anticipated for all three planning areas within the annexation area in the near future. The project would involve the annexation of 1,854 acres within the existing Sphere of Influence. The existing General Plan designations within the annexation area would not change. The lands would be pre-zoned to be consistent with the General Plan land uses.	NOP	07/21/2001
2001061094	Replacement of the Ocean Pier for Moss Landing Marine Laboratories California State University Trustees --Monterey The proposed project, known as the Replacement of the Ocean Pier for Moss Landing Marine Laboratories, involves the replacement of an existing damaged 480-foot-long wooden pier with the construction of a new 500-foot-long concrete pier. The primary function of the new facility would be a marine research pier to support the research of Moss Landing Marine Lab (MLML) and Monterey Bay Aquarium Research Institute (MBARI). The proposed pier would be built in the approximate location as the remnants of the former pier. The western end of the pier would include an expanded area of 60 feet by 48 feet to provide an area for a jib crane to retrieve and lower equipment, instrumentation, and small submersible research vehicles. 2001068292	Office Lease for the Public Utilities Commission Public Utilities Commission Oakland--Alameda The California Public Utilities Commission (CPUC) will lease approximately 9,948 square feet of existing office space at 180 Grand Avenue, Oakland, CA. The space will house approximately 50 CPUC employees from the Legal Division, Consumer Services Division, Administrative Law Judge Division, Energy, Telecommunications, and support staff. The lease space will have a reception area, three conference rooms, storage and supply rooms. The facility will not provide full service to the public, therefore, foot traffic will be minimal. Onsite parking will be limited to State vehicles and will include one handicap parking space. The project site is located within walking distance of public transit.	NOE	
2001068294	Plant Transformation Facility (UCR Project #958900-1) University of California, Riverside Riverside--Riverside The proposed project consists of construction of a new laboratory/headhouse of approximately 2,438 square feet, including site work and extension of utilities. The project will also include construction of a new approximately 1,296 square foot greenhouse and renovation of an approximately 2,128 square foot existing greenhouse.	NOE	
2001068295	Walker Creek Bridge Seismic Retrofit Fish & Game #3 --Marin The project involves the retrofit of the Walker Creek bridge to prevent collapse of the bridge during a large earthquake. The proposed work will include placing reinforced concrete walls between the columns of existing piers, reconstructing footings, and improvements to the abutments. Other structural improvements will be included which will not affect the stream. To expose the piers for construction, approximately 25 cubic yards of streambed material will be excavated. To allow construction within the bed of the stream, stream flow will be crowded against the right bank by placing gravel fill from the right bank around the pier which currently sits in the live stream. Approximately 45 cubic yards of imported gravel fill will be used to crowd the stream and isolate the work site. Issuance of Streambed Alteration Agreement Number R3-2001-0343 pursuant to Fish and Game Code Section 1601.	NOE	
2001068296	Nicasio Bridge Seismic Retrofit Fish & Game #3 --Marin The project involves the retrofit of the Nicasio Creek bridge to prevent collapse of the bridge during a large earthquake. The proposed work will include placing reinforced concrete walls between the columns of the existing piers and improvements to the abutments. Other structural improvements will be included which will not affect the stream. To expose the piers for construction, approximately 20 cubic yards of streambed material will be excavated and replaced. To allow construction within the bed of the stream, stream flow will be diverted through temporary 24-inch plastic pipe laid on the streambed. Approximately 20 cubic yards of imported gravel fill will be used to create coffer dams to isolate the work site from the flowing water. Issuance of Streambed	NOE

	Alteration Agreement Number R3-2001-0358 pursuant to Fish and Game Code Section 1601.		
2001068297	<p>Installation of Rock Slope Protection Around Culvert Fish & Game #3 --San Luis Obispo</p> <p>The project consists of placing rock slope protection across a culvert outflow on Arroyo Del Puerta Creek, which is a seasonal stream and flows only following periods of rainfall. The culvert is concrete lined and is under a bridge crossing the channel, and scour has removed much of the bed under the concrete lining. Rock slope protection ranging from 1/4 ton to 1 ton in size would be placed along the culvert to minimize the effects of the scour. Additional rock slope protection would be placed along the stream banks to protect along lateral scour. Issuance of a Streambed Alteration Agreement Number R3-2000-1428 pursuant to Fish and Game Code Section 1603.</p>	NOE	
2001068298	<p>Arundo Control on LedgeWood Creek Fish & Game #3 Suisun City--Solano</p> <p>This project consists of Arundo removal along a portion of LedgeWood Creek in Solano County, APN numbers 0026230210, 0026230150, and 0026210210. The address of the project site is 4756 Suisun Valley Road in Suisun, California. The area of Arundo removal covers about 1,300 linear feet with a total area of about 65,000 square feet. The area begins at the Wooden Valley Winery and extends north to the next bridge. There will be no cut, fill, or rip-rap used on this project. The work will be done by hand crews who have direct walking access to the creek. The California Conservation Corps (CCC) will send a crew of experienced staff to cut and stack the Arundo. No equipment will enter the creek from this project. Following the removal, they will use "Rodeo" as an additional chemical control. Native California Rose will then be planted in the late fall. The cut Arundo will be taken to landfill for disposal. Issuance of a Streambed Alteration Agreement Number R3-2001-0346 pursuant to Fish and Game Code Section 1601.</p>	NOE	
2001068299	<p>Bates Creek Bank Repair Fish & Game #3 --Santa Cruz</p> <p>Reconstruct rock slope protection and repair crib wall along Prescott Road. All work will be done from the roadside. 2001068301	Alameda Flood Control Channel Maintenance Fish & Game #3 Fremont--Alameda Applicant proposes to install a 24-inch bypass water pipeline across the Alameda Flood Control Channel, replace approximately 670 feet of two existing 60-inch and 66-inch water pipelines, and re-coat above ground sections of the pipelines for corrosion protection. The project occurs at three proximate locations in Fremont and is a part of a seismic upgrade project. Issuance of a Streambed Alteration Agreement Number R3-2000-1328 pursuant to Fish and Game Code Section 1601.	NOE	
2001068302	Modoc County Task Force Modoc County --Modoc The Modoc County Drug Task Force is a law enforcement agency that concentrates its efforts on illegal drug related activities with a goal toward reducing the illegal activities of targeted offenders through law enforcement, prosecution, and probation efforts. The Project is operating in an existing facility and will not conduct any physical construction during the grant award period.	NOE	
2001068303	El Cerrito Plaza Bicycle Parking Facility El Cerrito, City of El Cerrito--Contra Costa This is the second phase of construction, which will include four nodes (2 with eight bicycle lockers and 2 with twelve bicycle racks) accommodating a total of 40 bicycles. Phase I, funded through Enhancement funds and the City of El Cerrito, will be constructed in October, 2001. The scope of Phase II will include the construction of the remaining portion of the concrete pad, dividing walls, and the purchase of the racks and lockers. If this funding request is granted as submitted, there will be parking for 80 additional bicycles at the El Cerrito Plaza BART Station.	NOE	
2001068304	Mockingbird Canyon Dam Water Resources, Department of, Division of Dams Riverside--Riverside Replacement of existing emergency spillway to safely pass the 55,000-year flood event.	NOE	
2001068305	Health Sciences District Projects Soil Placement University of California, Davis Davis--Yolo The UC Davis campus (the campus) proposes to place approximately 36,000 cubic yards of soil excavated for construction of approved projects in the Health Sciences District on an approximately 66-acre agricultural field in the west campus. The excavated soil would be applied to the field, uniformly raising the parcel by approximately 4 inches. The placement of soil would not conflict with current operations, nor would it hinder future land uses. Site preparation for the basement of the Genome and Biomedical Sciences Facility will excavate approximately 6,000 cubic yards of soil.	NOE

2001061104	<p>Mendota Pool 2001 Exchange Agreement U.S. Bureau of Reclamation Mendota--Fresno</p> <p>The purpose of the proposed project is to provide up to 31,000 acre-feet of water to irrigable lands on MPG properties to offset cutbacks in water supplies attributable to the CVPIA, the Endangered Species Act (ESA) listings and regulations, and new Delta water quality rules. Of this, 25,000 acre-feet would be exchanged with Reclamation for water from the DMC at Check 13. The 25,000 acre-feet of non-CVP water to be exchanged constitutes the federal action that is the subject of this EA.</p>	EA	07/23/2001
1999011007	<p>Santa Ana River Crossings Cooperative Study (SARX) Orange County Transportation Authority --Orange</p> <p>The project consists of the deletion of proposed bridge crossings at Banning Avenue/19th Street and Garfield Avenue/Gisler Avenue over the Santa Ana River from the Orange County Master Plan of Arterial Highways (MPAH).</p>	EIR	08/06/2001
2000061027	<p>City of Rancho Cucamonga General Plan Update Rancho Cucamonga, City of Rancho Cucamonga--San Bernardino</p> <p>The proposed project is the update of the Rancho Cucamonga General Plan. The Planning Area encompasses the existing City (approximately 24,000 acres) as well as its sphere of influence (approximately 7,700 acres) that is located north of the City. This update includes changes in land use designations as well as updates to the policies and programs within the City's General Plan. No substantial changes in the existing land use designations are included in the proposed update. The proposed General Plan includes the reduction of approximately 182 acres of residential uses. Within the existing City limits, non-residential acreage is reduced by 18 acres and residential acreage is increased by 18 acres. Within the sphere of influence, the change is a reduction of 200 acres in residential uses, and an increase of 200 acres in non-residential uses. With implementation of the proposed General Plan, the following additional development would occur with buildout: approximately 13,524 dwelling units, approximately 9,460,680 square feet of commercial, approximately 52,811,591 square feet of industrial, no additional public/quasi-public uses, and approximately 231 acres of arterials/freeways.</p>	EIR	08/06/2001

2001061100	Community Charter Middle School Community Charter Middle School Los Angeles, City of, San Fernando--Los Angeles To develop a charter middle school on an 0.68-acre parcel. The school would have a maximum enrollment capacity of 225 students and employ approximately 12 staff. The school would consist of three buildings containing 10 classrooms. Existing structures on site would be reused as part of the school.	Neg	07/11/2001
2001061101	Curt Morgan/Jo Ann Can Arsdale Monterey County Planning & Building Inspection --Monterey The project consists of three 10,000-gallon capacity water tanks, a 2-inch transmission main from an existing well, a 6-inch distribution main from the tanks, and a 4-inch distribution.	Neg	07/23/2001
2001061102	Minor Subdivision 1112-99 San Benito County Hollister--San Benito The project proposes to subdivide a 20-acre parcel into four (4) five-acre parcels. The site is located on the east side of Fairview Road and is located between Lone Tree and Rosa Morada Roads. The parcel is 329-feet wide and extends 2,645 feet through to Magladry Road. The existing home (Parcel 4) would continue to be accessed from Fairview Road and the 3 new lots would be accessed from Magladry Road to the east. Forty-two feet of frontage along Fairview Road, as well as a 30-foot-wide, 1,321-foot long right-of-way easement, are proposed to be dedicated to the County. An existing well, on proposed Parcel 3, would provide domestic water to all the properties, with approval of a local small water system. Individual detention ponds would be constructed on each of lots to handle storm water run-off.	Neg	07/23/2001
2001061103	Draft Initial Study for Second Amendment to Operable Unit No. 1 Tar Pits Remedial Action Plan for Kaiser Steel Site Environmental Protection Agency, California Fontana--San Bernardino The project is to solidify the waste coal tar sludge in site, cap the site and record a deed restriction for the site.	Neg	07/23/2001

2000061095	Hillcrest Christian School and Church Los Angeles City Planning Department Granada Hills--Los Angeles The project includes a proposed three-story, 75,000 square-foot building on a 5.5 acre property in the A1-1K zone, as an expansion of, and adjacent to, an existing 60,000 square-foot church and private school (grades K-12) on a separate parcel east of Shoshone Avenue in the A-1 zone, to allow a student increase from the currently permitted 800 maximum to 1,200 students, and a staff increase from the existing 70 to a proposed 130. New indoor construction would include a gymnasium, locker rooms, coaches offices, 21 classrooms, a library and cafeteria. New outdoor improvements would include an athletic field. The project will provide a 124-space parking lot, in lieu of the 286 spaces required by code, and will implement a shared parking program with overflow parking on the existing East Campus. The entire 5.5 acre project site will be graded, with cut slopes, and retaining walls to 20-30 feet high. The three existing residences and the six accessory buildings and pools, and approximately 300 trees on the project site will be removed. The project requires a Conditional Use Permit to allow the proposed expansion to support the planned student enrollment and staff increase; a Zone Variance to allow the proposed reduction in parking requirements; a Zoning Administration Adjustment to allow the proposed 5-foot parking setback in lieu of the required 25-foot setback; and oak tree permit for the removal and/or replacement of on-site oak trees and a Haul Route Approval for exporting earth.	EIR	08/08/2001
2001061048	Lemke House Preservation/The Church in Fullerton Meeting Hall Addition/Specific Plan - 2 Amendment Placentia, City of Placentia--Orange The project includes preservation of the Lewis Lemke House at 414 North Placentia Avenue in the City of Placentia, constructed in 1928, and development of a 5,811 square foot two-story meeting hall addition and 73 surface parking spaces on 1.2 acres. The meeting hall is a facility for use by the Church of	EIR	07/25/2001

	Fullerton, 1330 North Placentia Avenue, Fullerton, California. Peak attendance at the meeting hall will be from 9-1 Sundays for worship services. The existing Lewis Lemke House, considered eligible for listing in the California Register of Historic Places, and garage have been converted to office use and will remain in office use. The existing barn, which is used for storage, will be demolished or relocated. The project requires amendments to Specific Plan - 2, which will change the permitted land use to allow for the meeting hall. Access to the site is from North Placentia Avenue.		
1995052078	Triangle Rock Products Zoning Agreement And Use Permit Amendments Sacramento County Sacramento--Sacramento Zoning Agreement and Use Permit Amendments, as required by condition 45 of the Zoning Agreement Number 5269, to reflect the conditions of the secured Corps of Engineers permit. The proposed changes are as follows: (1) The elimination of mining in Laguna Creek. The Laguna Creek Corridor will now be preserved (Plate B, Current Reclamation Plan). The new proposal eliminates the mining of 23 acres in the original Phase III of the project. (2) Phase III is now proposed to be mined simultaneously with the new Phase X. (3) The mining phases have been renumbered to reflect the elimination of most of the original Phase III and the phases have been renumbered to reflect 10 phases (Plate C, Current Mining Plan). (4) The Laguna Creek Floodplain will now be preserved and contained by flood control berms. (5) Drainage from the north of Jackson Highway will now bypass the mined phases. (6) Phase I and Phase II will now be filled to approximate original grade (Plate B, Current Reclamation Plan). (7) The original Phase IX excluded mining of a five-acre parcel on Eagles Nest Road.	NOP	07/24/2001
1996042009	Land Application Site Acquisition Supplemental EIR Modesto, City of Modesto--Stanislaus The City of Modesto is proposing to use the 327-acre Ho property as a site for the land application of treated wastewater and cannery wastewater; an additional approximately 2,200 acres of the 34,000-acre Study Area will eventually be acquired. The land would be used mainly for agricultural operations; wetland habitat creation may also occur, where appropriate. The majority of the lands acquired by the City would be used for pasture and silage, and the proposed operations would be similar to existing agricultural operations.	NOP	07/24/2001
2001061106	Proposed Amendments to Ventura County Air Pollution Control District Rule 74.2, Architectural Coatings Ventura County Air Pollution Control District --Ventura The District is acting as the lead agency for this project, which is to adopt amendments to Rule 74.2, Architectural Coatings, to incorporate the State of California's Suggested Control Measure (SCM) for Architectural Coatings adopted by the California Air Resources Board (ARB) on June 22, 2000. The SCM sets allowable volatile organic compounds (VOC) limits and other requirements (based on existing and currently developing coating technologies) for a number of architectural coating categories, including flats, nonflats, industrial maintenance, lacures, floor, roof, rust preventative, stains, primers, sealers, and undercoaters. The proposed VOC limits would become effective on various dates with complete	NOP	07/24/2001

	implementation on January 1, 2004.		
2001061111	TyCom Transpacific Fiber Optic Cable Project (PDP #01-10) Hermosa Beach, City of Hermosa Beach, Redondo Beach--Los Angeles The EIR will address the potential onshore environmental impacts of landing, constructing and operating the project. The report will cover impacts to the marine environment from the shoreline westerly out to the 1,800-meter water depth, which generally corresponds to the outer edge of the continental shelf. The geographic scope for the EIR is based on the scope of environmental review for similar previous projects and extends well beyond three nautical miles from shore, or the limit of Hermosa Beach's jurisdiction. The environmental review conducted during the preparation of the EIR is intended to be consistent with permitting requirements for Responsible Agencies.	NOP	07/24/2001
2001062100	Nut Tree Development Project Vacaville, City of Vacaville--Solano Planning approvals to allow large mixed-use project including full service hotel (300 rooms), conference facility, business hotel, specialty retail, historic Nut Tree attractions, up to 500 residential units in the core Nut Tree commercial area, up to 640,000 square feet of office space, a golf driving range, and up to two 18-hole championship golf courses. The project site includes the core Nut Tree area near I-80 and East Monte Vista Avenue, and 400-450 acres of open land on areas to the north and west of the Nut Tree for construction of the golf courses. The project includes formation of an assessment district for public roadway and infrastructure development.	NOP	07/24/2001
2001062107	Alameda Point Golf Course Alameda, City of Oakland, Alameda--Alameda The proposed project is an 18-hole links-style golf course and public open space with associated facilities plus a nine-hole executive (short) course, on approximately 215 acres at Alameda Point. The project would provide public access on the shoreline via a public park operated by the City of Alameda and an extension of the San Francisco Bay Trail operated in coordination with the East Bay Regional Park District. The site contains portions of the abandoned airfield, guard tower, and several small support structures, all of which would be demolished.	NOP	07/30/2001

2001061114	The Center City Park and Library Project Lemon Grove, City of Lemon Grove--San Diego The City Center Park and Library Project will involve a consolidation of five parcels and a vacation of a portion of Church Street to create a 3.5 acre civic center to be located on the block bounded by Main Street, Central Avenue, Olive Street and Pacific Avenue. This civic center will consist of the existing City Hall, City Hall Annex, and the Parsonage (historic) buildings, with the addition of a park with mostly passive recreation areas, a new publicly owned 15,000 square foot library building, a 5,000 square foot community meeting room and related parking facilities. Along with the closure of Church Street, the project will realign Main Street along the east side of the park to provide a more pedestrian friendly travel area and additional landscaping.	Neg	07/25/2001
2001061115	Use Permit-Leal Vineyards San Benito County Hollister--San Benito To operate a winery within existing 7,500 sf building. The winery production would not exceed 40,000 gallons per year.	Neg	07/25/2001
1999061064	Vesting Tentative Tract Map 53419 -Valle Di Oro Santa Clarita, City of Santa Clarita--Los Angeles The proposed project would be a gated development consisting of 111 condominium residential units on 5 lots which include 1 open space lot and 1 recreational lot which totals 21.15 acres. 1999082004	<p>Planned Development Rezoning (File No. PDC99-05-044) Legacy Terrace Development site San Jose, City of San Jose--Santa Clara</p> <p>The project is the replacement of an existing 36-inch tall outfall with a 48-inch outfall in Guadalupe River in the City of San Jose. The replacement will occur at the existing outfall location at the edge of the wide flood controlled channel of Guadalupe River. The project involves the removal of the existing 36-inch outfall structure and associated grouted rip rap and replacement with a 48-inch outfall. A backhoe and other minor equipment will be utilized on the site. The project will take about one week to complete. The rip rap around the new outfall structure will be grouted with concrete. The California Department of Fish and Game (CDFG) is executing a Lake and Streambed Alteration Agreement number R3-2000-1434 pursuant to Section 1603 of the Fish and Game Code to the project operator, Tom Jodry / Legacy Partners.</p>	NOD	
1999091008	<p>Raymond Theater Reuse and Mixed Use Development Pasadena, City of Pasadena--Los Angeles</p> <p>The Pasadena City Council approved the Raymond Theater Reuse and Mixed Use Project that consists of 61 residential units to be constructed in a new building on the vacant lot adjacent to the Raymond Theater. This new building will have approximately 1,500 square feet of retail space. The theater will be used as a performing arts venue and will be restored. The City Council adopted a mitigation measure that requires the theater to be rehabilitated according to the Secretary of the Interior's Standards for Rehabilitation. The Council approved specific variances for the new building. These include: a height variance which allows the new building to be a maximum of 65 feet where the Civic Center Plan allows 45 feet and to have 6 stories where the Central District Plan allows only 4 stories for non-residential projects. This new building is considered a non-residential building because it has a small amount of retail space. They also approved a variance that allows a 5-foot setback from the street where the Code does not permit any setback and variances for increased compact parking spaces and to allow tandem parking spaces.</p>	NOD	
2000102023	<p>10 CAL-4-PM 12.5/13.0, Curve Correction on Route 4 in Calaveras County near Copperopolis Caltrans #10 --Calaveras</p> <p>The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number R2-2001-199 pursuant to Section 1601 of the Fish and Game Code to the project applicant, David Sangha representing Caltrans. 2001068367	<p>Roof Replacement for Building D Parks and Recreation, Department of Gorman--Los Angeles</p> <p>The purpose of this project is to replace the existing damaged roofing material on Building D with a new composite shingle roof. The location of Building D is the Hungry Valley District maintenance facility. There will be no ground disturbance, vegetation disturbance, or excavation involved with this project. The 53-foot by 22-foot building was originally constructed in the mid-1950s as a chicken coop, since then it has been refurbished many times at unknown intervals. Sometime prior to 1978 the building had tin siding installed and this same siding was also installed on the roof. Currently this makeshift roof leaks severely and is therefore causing damage to the wooden framing of the building. This project will remove this existing roof material and repair any damage found including the facer board, then 30-pound roofing felt will be installed and covered with a 30-year, composite shingle roof. There will be no structural changes to the building, or soffit.</p>	NOE	
2001068368	<p>Restroom Installation at South Entrance Station Parks and Recreation, Department of Gorman--Los Angeles</p> <p>The purpose of this project is to install a new pre-cast "CXT Gunnison" vault restroom, with the odor-free vent design at the south entrance station of Hungry Valley SVRA. The new CXT restroom will be installed with an adjacent handicap parking area on the south side of Hungry Valley Road across from the existing kiosk. The footprint dimensions of the new restroom are 14-feet, 7-inches by 8-feet, 6-inches, the height of the new restroom is 9-feet. The required excavation for the new ABS lined sealed vault will be 6-feet, 6-inches by 14-feet, 7 1/2-inches by 4-feet, 4-inches deep. The new pre-cast concrete/steel reinforced double restroom structure meets all earthquake, hurricane, and ADA requirements. This location is remote, having no water or sewer service, therefore the restroom will be of vault style, requiring pumping service for evacuation. The vault will be completely sealed from all concrete and soil interaction. The building will be painted approved State Park natural tone colors.</p>	NOE	
2001068369	<p>Restroom Installation at North Entrance/Visitor Center Parks and Recreation, Department of Gorman--Los Angeles</p> <p>The purpose of this project is to install a new pre-cast "CXT Tioga" vault restroom, with the odor-free vent design at the North Entrance/Visitor Center area of Hungry Valley SVRA. The new CXT restroom will be installed adjacent to the existing parking lot and a handicap parking area will be provided. The footprint dimensions of the new restroom are 16-feet, 8-inches by 11-feet, 11-inches, the height of the new restroom is 9-feet, 7-inches. The required excavation for the two new ABS lined sealed vaults will be 14-feet, 4-inches by 11-feet, 11-inches by 4-feet, 4-inches deep. The new pre-cast concrete/steel reinforced double restroom structure meets all current earthquake, hurricane, and ADA requirements. The location is remote, having no water or sewer service, therefore the restroom will be of a vault style, requiring a pumping service for evacuation. The vaults will be completely sealed from all concrete and soil interaction. The building will be painted approved State Park natural tone colors.</p>	NOE

2001068386	Seismic Program - Dorm Building E, CCI Tehachapi Project General Services, Department of Tehachapi--Kern The proposed project would seismically retrofit the existing Dormitory Building E at the California Correctional Institution (CCI), Tehachapi. The existing building has been evaluated by the Seismic Retrofit Program, and determined to require structural improvements to strengthen this State facility. Dormitory Building E is a two-story building, with a floor space of approximately 33,900 square feet. It functions as an inmate dormitory, and faces Dormitory F. The project includes the following seismic retrofit improvements: 1) addition of new concrete shear wall lengths, 2) fiber-wrap on existing concrete and masonry shear wall portions, and 3) concrete moment resisting frames strategically spaced to divide the horizontal span of the roof and floor diaphragms. The project would not involve an expansion of current use.	NOE	
2001068387	Seismic Program - DVI Tracy Hospital Building Project General Services, Department of Tracy--San Joaquin The proposed project would seismically retrofit the existing Wing B Hospital at the Deuel Vocational Institution (DVI), Tracy. The existing building has been evaluated by the Seismic Retrofit Program, and determined to require structural improvements to strengthen this State facility. Wing B Hospital is a two-story building, with a floor space of approximately 33,200 square feet. It functions as the facility's infirmary, and is adjacent to the Administration Building. The project includes the following seismic retrofit improvements: 1) addition of new shear walls, and 2) addition of a new building, approximately 16 square feet in size which would abut the Administration Building. The project would not involve an expansion of current use.	NOE

2000081053	<p>Electronic Freeway Sign Ordinance Lawndale, City of Lawndale--Los Angeles</p> <p>The Draft EIR concluded that the proposed electronic freeway sign would be significantly larger than existing signs in the area and that some people could find the height, area of sign, location, brightness, and message center components of the sign objectionable (primarily residential areas southwest of the project site in the City of Redondo Beach). This section has been revised to conclude that although aesthetics is subjective and relative to the "eye of the beholder," aesthetic impacts could be potentially significant and unavoidable to some nearby residents. This section also presents additional information regarding the setting, thresholds, impacts, cumulative impacts, mitigation measures, and level of significance after mitigation.</p>	EIR	08/10/2001

	2 debris basin lots and 8 open space lots.		
2001069053	Streambed Alteration Agreement R3-2001-0225 Forestry and Fire Protection, Department of --Mendocino The project activity will involve bed, bank, or channel alteration at one stream crossing of an unnamed tributary to the Eel River. The crossing is part of the creation of a timber operation skid trail to be constructed across the toe of an old unstable area within the riparian corridor of a non fish bearing watercourse. The skid trail will be constructed just below the old road grade, below the slide, and will cross the watercourse directly under the power line right-of-way. The Stream course is expected to be dry at the crossing point at the time of operations however, if there is water at the crossing site it will be able to flow through the spaces between the logs laid as a modified Spittler crossing.	NOD	
2001069054	Streambed Alteration Agreement 2000-1229 Fish & Game #3 --Mendocino The following project activities (2) involve one installation of a class I bridge crossing (see attached map point #11), the replacement of one class II culvert (see attached map point #5) and alteration of bed, bank, or channel in the North Fork 10 Mile River Watershed. Both activities are approximately .25 areal miles apart. Each crossing is located approximately 4.5 areal miles inland from the coast and north of Bucha Ridge as described in the timber harvest plan (1-00-347 MEN) located on Hawthorne Timber Company (HTC) property. The timber harvest plan (THP) map "Bucha Ridge THP Section 19; T20N; R16W; Duchmans Knoll USGS Map" specifically indicates the location at which the crossings will require the Streambed Alteration Agreement. The topographic exposure is north west and slopes are moderately steep. The elevation at the site is approximately 400 feet at the class II and less than 200 feet at the class I crossing. The site visit was conducted on September 21, 2000 and no running water was observed at the class II site during the inspection.	NOD	
2001069055	Streambed Alteration Agreement 2001-0305 Forestry and Fire Protection, Department of Fort Bragg--Mendocino The project consists of the replacement of an 18" diameter culvert with a new 18" diameter culvert on a class II watercourse. The new culvert will be aligned with the functional watercourse channel. The project will also include water drafting from a Class I watercourse (Navarro River) for the purpose of dust abatement. Water drafting is proposed either from a temporary bridge that is installed by the property owner by mid-June each year, or if water is required prior to the bridge being installed, from the existing access road.	NOD	
2001068408	Tijuana River Valley Invasive Plant Control Program State Coastal Conservancy San Diego--San Diego The project involves preparing and carrying out plans to eradicate invasive plant colonies. A program will be developed with landowners and natural resource agencies. Priorities will be established and site-specific plans will be developed for priority parcels. The Coastal Conservancy will evaluate plans under CEQA	NOE

	prior to authorizing funding for implementation.		
2001068409	Planning and Design Agreement: Cachuma Reservoir Surcharge Cachuma Operation and Maintenance Board --Santa Barbara Approval of an agreement between Reclamation and Cachuma Operation and Maintenance Board (COMB) to carry out planning and design studies for the potential Surcharge Project. The Surcharge Project would provide installation of a four foot flashboard to Bradbury Dam to provide up to an additional 9200 acre feet of water for restoration of endangered steelhead in the lower Santa Ynez River. The project is a possible future action subject to further review based on results of the subject planning and design studies.	NOE	
2001068410	Maintenance Dredging at Ryer Island Boat Harbor Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland --Solano Maintenance dredging of approximately 4300 cubic yards of sediments, to a project depth of -5 feet Mean Lower Low Water (MLLW), with a one-foot overdredge allowance, with disposal of the dredged sediments at the Carquinez Dredged Material Disposal Site (SF-9) in San Francisco Bay.	NOE	
2001068411	Bank Stabilization Project Fish & Game #3 Santa Rosa--Sonoma The project consists of rock rip-rap bank stabilization along approximately 80 feet of Colgan Creek at the Kawana Springs 3 development. Colgan Creek in the project area goes completely dry during the summer. Site specific surveys found no sensitive species in the project area. Issuance of Streambed Alteration Agreement Number R3-2001-0419 pursuant to Fish and Game Code Section 1603.	NOE	
2001068412	Storm Drain Pipe Installation and Revegetation Project Fish & Game #3 Santa Rosa--Sonoma The project will include the installation of an 18-inch diameter corrugated metal storm drain pipe. The pipe will be installed by trenching through the north bank and daylighting near the channel bottom. Rock rip-rap, 8-inches to 12-inches in size, will be placed at the outlet to provide energy dissipation and bank stabilization. Work will be performed with an excavator from above the channel bank. The project will also include planting thirteen 15-gallon valley oaks and six 15-gallon western sycamore at or near the top of the north channel bank long Zinfandel Avenue. Trees will be irrigated until mature. Teasdale Creek is a seasonal stream with no known fish populations. Issuance of a Streambed Alteration Agreement Number R3-2001-0315 pursuant to Fish and Game Code Section 1603.	NOE	
2001068413	Bank Stabilization Project Fish & Game #3 Paso Robles--San Luis Obispo The project involves bank stabilization along the southern edge of the creek for a distance of approximately 0.35 miles. The project follows prosecution of Thomas White Jr. for unlawfully altering the creek absent a Department of Fish and Game	NOE

	updates in the remaining site capacity and site life estimates; and (6) a change in the contract operator from Waste Management, Inc. to Norcal Construction and Engineering.		
2001061131	Banning Bench Specific Plan Banning, City of --Riverside The Banning Bench Specific Plan is a 600-acre proposed residential/golf course community located immediately north of Wilson Street in the City of Banning. Access to site is via Sunset Avenue north of Interstate 10. Proposed residential uses involve 174.8 acres containing 844 single family residential units and 100 single family cluster homes on 16.1 acres. The Specific Plan will allow a maximum of 944 dwelling units. Also proposed on site is a 10.0-acre village office and commercial development (containing a maximum of 90,000 square feet of interior commercial space) which is designed to meet day-to-day needs of residents of the community, 6.2 acres of quasi-public use (churches, post office, fire station, etc.), a 1.7 acre project sales center, 66.1 acres of on-site roadways and 325.1 acres of recreation and open spaces uses, including an 18-hole golf course, a club facility, public use areas, greenbelts and mini parks. Project approvals include approval of a General Plan Amendment; approval of a Zone Change in order to accommodate the proposed Specific Plan; approval of a Specific Plan for development of 944 dwelling units and the other recreation, office/commercial and quasi-public land uses noted above; approval of a Development Agreement and certification of a Final EIR.	NOP	07/30/2001
2001062119	MTA Properties Communications Hill General Plan Amendments (File No. GP01-07-02) San Jose, City of San Jose--Santa Clara The project proposes a series of General Plan amendments and 14 Communications Hill Specific Plan text amendments. The General Plan land use changes are summarized as follows: (#1) Change the current land use designation from Heavy Industrial (27 acres) and Combined Industrial/Commercial (28 acres) to Industrial Park (55 acres); (#2) Change the current land use designation from Multi-Family Residential -24-40 dwelling units/acre (DU's/Ac) (6 acres) and Open Space/Trails (4 acres) to Parks/Play Fields (5 acres) and Public/Quasi-Public School Site (5 acres); (#3) Change the current land use designation from Parks/Play Fields (5 acres), Public/Quasi-Public School Site (5.2 acres) and Public/Quasi-Public Civic (0.5 acres) to Open Space/Trails (10.7 acres); (#4) Change the current land use designation from Open Space/Trails (6.3 acres) to Multi-Family Residential -24-40 DU's/Ac (6.3 acres); (#5) Change the current land use designation from Commercial (0.5 acres) to Civic (0.5 acres); (#6) Change the current land use designation from Utilities (2.0 acres) to Parks/Play Fields (2.0 acres); (#7) Eliminate the current Hillcap Avenue extension and add Old Hillside Avenue extension; and (#8) Realign Pullman Avenue extension between I Street and the railroad tracks (to align with 20th Street) and eliminate 19th Street between I Street and Vista Park Drive (Communications Hill Boulevard). The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2001068424	Transfer of Coverage to El Dorado County APN 80-192-06 (Netis/Bondar) Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 358 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2001068425	Seismic Program - CMC San Luis Obispo Administration Building, Wing A Project General Services, Department of San Luis Obispo--San Luis Obispo The proposed project would seismically retrofit the existing Wing A Administration Building at the California Men's Colony (CMC), San Luis Obispo. The existing building has been evaluated by the Seismic Retrofit Program, and determined to require structural improvements to strengthen this State facility. Wing A of the Administration Building is a two-story U-shaped concrete structure with outside dimensions measuring 200 feet by 166 feet-6 inches and a floor space of approximately 51,400 square feet. The project include the following seismic retrofit improvements: 1) addition of concrete shear wall in-fills along some of the exterior and courtyard walls; 2) two concrete columns and accompanying foundation in the waiting room; and, 3) collector members at diaphragm discontinuities. The project would not involve an expansion of current use.	NOE
